Top 25 KEGG Enrichment Pathways, human_ductal_up
Bile secretion
Pancreatic secretion
Axon guidance
IgSF CAM signaling
Proximal tubule bicarbonate reclamation
Integrin signaling
Gastric acid secretion
Focal adhesion
PI3K−Akt signaling pathway
Pancreatic cancer
Ras signaling pathway
Small cell lung cancer
Morphine addiction
cAMP signaling pathway
Choline metabolism in cancer
Human papillomavirus infection
Regulation of actin cytoskeleton
Thyroid hormone signaling pathway
AGE−RAGE signaling pathway in diabetic complications
Cytoskeleton in muscle cells
Pathways in cancer
Protein digestion and absorption
ECM−receptor interaction
Hypertrophic cardiomyopathy
Long−term depression
