Top 25 KEGG Enrichment Pathways, ferret_acinar_down
ECM−receptor interaction
Integrin signaling
Maturity onset diabetes of the young
Small cell lung cancer
mTOR signaling pathway
AGE−RAGE signaling pathway in diabetic complications
Amoebiasis
Protein digestion and absorption
Human papillomavirus infection
Focal adhesion
Relaxin signaling pathway
Acute myeloid leukemia
Cadherin signaling
Cornified envelope formation
Purine metabolism
Phosphonate and phosphinate metabolism
Lysine degradation
KEGG root term
Glycosphingolipid biosynthesis − ganglio series
Glycosaminoglycan biosynthesis − heparan sulfate / heparin
Glycosaminoglycan biosynthesis − chondroitin sulfate / dermatan sulfate
Glycerophospholipid metabolism
Ether lipid metabolism
alpha−Linolenic acid metabolism
Alanine, aspartate and glutamate metabolism
