Top 25 KEGG Enrichment Pathways, human_ductal_up
Proximal tubule bicarbonate reclamation
Long−term depression
Gastric acid secretion
Choline metabolism in cancer
Small cell lung cancer
Pancreatic cancer
Integrin signaling
Axon guidance
ECM−receptor interaction
Bile secretion
Hypertrophic cardiomyopathy
AGE−RAGE signaling pathway in diabetic complications
Focal adhesion
Protein digestion and absorption
Thyroid hormone signaling pathway
IgSF CAM signaling
Pancreatic secretion
Regulation of actin cytoskeleton
Morphine addiction
PI3K−Akt signaling pathway
Cytoskeleton in muscle cells
Human papillomavirus infection
Ras signaling pathway
Pathways in cancer
cAMP signaling pathway
