Top 25 KEGG Enrichment Pathways, human_ductal_down
Arginine biosynthesis
Renal cell carcinoma
Glycosaminoglycan biosynthesis − chondroitin sulfate / dermatan sulfate
Pancreatic secretion
Glycosaminoglycan biosynthesis − keratan sulfate
Adherens junction
Pentose and glucuronate interconversions
Ascorbate and aldarate metabolism
Long−term depression
Primary bile acid biosynthesis
Protein digestion and absorption
Insulin resistance
Axon guidance
Steroid biosynthesis
cGMP−PKG signaling pathway
TGF−beta signaling pathway
Oocyte meiosis
Apelin signaling pathway
Calcium signaling pathway
FoxO signaling pathway
Fructose and mannose metabolism
Wnt signaling pathway
Adrenergic signaling in cardiomyocytes
Hippo signaling pathway
